### **TO REPROGRAM YOUR ELECTRIC OPERATOR**

1. With the door in the closed position, press the 'Prog' button on the face of the machine once.
2. The number '1' will appear, followed by 'L' (meaning learn). Press the UP arrow once, the door will now open completely.
3. Wait 5 seconds, then press the down arrow once. The door will close completely and then re-open.
4. Wait another 5 seconds.

*The operator is now functional and can be operated with the handset again.*
